EXPERIENCE

ZAYYANT | Part-Time Full Stack Developer

| Aug 2025 – Present

- Designed responsive desktop & mobile UIs in Figma, built frontend with React (TypeScript, Tailwind) and backend with Firebase (Firestore, Auth, Storage).
- Implemented multilingual (EN/AR) support, payment gateways, and AI-powered tools for room visualization & furniture shopping.
- Sole developer delivering end-to-end MVP for the UAE market with limited technical guidance.

ITG Holding -Middleware Data Systems | Embedded Systems Engineer Intern

| May 2024 – Jul 2025

- Installed and configured HPE servers, Synergy systems, SANs, and Alletra storage units; performed OS installations and validated full system readiness.
- Used HPE OneView and iLO for remote setup, firmware upgrades, and network configuration; replaced faulty components (disks, RAMs, cables)
- Led full system integration, including hardware setup, cabling, labeling, and software configuration.

BAMPTEE | Full-Stack Development Intern

| Dec 2024 - Mar 2025

- Developed reusable components and optimized existing code using React TypeScript
- Fixed bugs and implemented feature enhancements to improve platform performance
- Managed backend operations with ExpressJS and MongoDB for efficient data handling

FREELANCE PROJECTS

• Full-Stack Developer | KAIZENAPP

| Sep 2025 – Dec 2025

- Collaborated with Dr. Marc Haddad (LAU) to translate Lean/Kaizen into simple EN/AR (RTL) workflows and validate UX with shop-floor users.
- Developed bilingual full-stack app with i18n/RTL, JWT auth, and MongoDB/Express backend; modules included Kanban, 6S, Projects, Rewards, Analytics, Poka-Yoke, Andon, SMED.
- Delivered core flows: Kanban low-stock → Order Requests, Standard Work runner + reports, Andon escalation, Poka-Yoke checks, and actionable dashboards.

• Full-Stack Developer | Target Motors Angola

| Apr 2025 - May 2025

- Developed appointment management system (scheduling, customers, admin/user roles) using MERN stack, with full frontend + backend integration.
- Implemented secure authentication and bilingual (PT/EN) support for the Angolan market.

• Frontend Developer | PropScan (UAE)

| Jan 2025 - Apr 2025

- Co-developed *React Native* mobile app connecting clients with service providers
- Designed intuitive user interfaces and implemented responsive interactive components
- Optimized app performance with efficient state management and lazy loading techniques

• Web Developer | E-commerce Shop

| Jan 2023 - Jun 2023

- Designed and developed a cash on delivery e-commerce shop using *Next.js*
- Implemented product filtering, search functionality, and responsive design to optimize user experience across devices
- <https://apocalypselb.vercel.app/>

• Web Developer | FMC Saudi Arabia

| May 2022 - Aug 2023

- Built official multilingual company site (React + Firebase) and custom CMS enabling staff to update content independently
- <https://fmc-supplychain.netlify.app/>

LOYAC LEBANON | Beirut, Adliyah

| Feb 2022 - Oct 2023

• Web Development Trainer

- Co-designed and taught 3-generation program in HTML, CSS, and JavaScript
- Mentored students on portfolio and web game projects
- Taught fundamentals of ReactJS framework development

EDUCATION

LEBANESE AMERICAN UNIVERSITY | Byblos, Blat | Expected May 2026

- Bachelor's degree in Computer Engineering

SAINT GEORGE SCHOOL | Beirut, Hadath | July 2022

- High School Diploma, Graduated with Honors, Valedictorian

SKILLS

Technical: JavaScript, TypeScript, Java, ReactJS, NextJS, React Native, Tailwind, Redux, Spring Boot, SQL, MongoDB, HTML, CSS

Languages: Arabic (C2), English (C1), French (C1)
